

Thanks to our friends over at Comicus, we have the following interview with Captain America: The First Avenger star, Kenneth Choi. In the movie, the actor plays Jim Morita, a Commando adept in hand-to-hand combat who also happens to be pretty good with a machine gun. Below are just a few of the main excerpts, but to read the interview in its entirety, simply click on the link at the bottom of the page. How did you enter the cast of Captain America? Did you attend an audition? Yes, I attended an audition for the role of Morita. I was the last actor to read for that role. Three weeks later, I had a second appointment and thereafter was offered the role. As the script was being kept a secret, they had actors read sides from the film, "Saving Private Ryan". I later found out that all of my fellow actors read the
