

AceShowBiz has some new information in regards to the second season of the hit Zombie TV series. I haven't read the books yet so i am unsure how major these characters are so folks who have actually read the series might be in a better position to shed more light on this. Survivors include Hershel, the owner of Hershel's Farm where the season 1 survivors would stumble upon. Hershel is a veterinarian, "a Wilford Brimley type", who has a daughter named Maggie. Then there's a middle-aged ranch foreman called Otis who is "such a sweetheart that he all but loses it when he accidentally shoots a fellow survivor." No official date has been given for the premiere of the second season but fans continue to wait impatiently. Get Follow Me Buttons
