We have seen a few of these amateur set vids lately but this one gives us the closest(albeit a bit shaky!) look at the new costume with the mask that is being worn by who we assume is Andrew Garfield's stunt double. I think it's a safe bet that ol Spidey has run out of web fluid here! Either that or, this incarnation ain't the brightest I guess. Anyway, all looking pretty good so far. Thanks to ReallIronMan for the heads up.
