

Written by Kevin Tancharoen, Aaron Helbing and Todd Helbing, and available online this spring from Warner Bros. Digital Distribution, the "Mortal Kombat" digital new media series is an anthology of multiple live action shorts. Each episode will provide never-before-revealed insights into characters featured in the upcoming videogame as well as the game's universe...Fans will be able to delve deep into the history of the warriors they know and love including "Sub-Zero" and "Scorpion." If you've been wondering why we haven't seen the final episode of Mortal Kombat: Legacy, that's because it will debut during San Diego Comic-Con. It looks like they are working on visuals effects and stuff like that, but we will see it soon on Machinima also. Below is a new image from the episode, and I'm guessing that's 'Cyrax' and 'Sektor'. Check it out: [Click on image to enlarge] I have to say, it looks pretty cool. Especially 'Cyrax'.
