1. The WEB-SHOOTERS See those metal discs on Peter Parker's wrists? If they're mechanical web-shooters, the new franchise could be planning a major reboot of the character's history, as longtime fans know that Peter Parker's web-shooting ability originally stemmed from a pair of mechanical bracelet-like contraptions that he wore under his gloves. In the comics universe, the "webs" he shot were composed of a chemical he invented, and not a product of the radioactive spider-bite that gave him his other powers. Recent storylines in Spidey's comics universe have gone back and forth on the "organic vs. mechanical webbing" debate, with the prior movie franchise going full organic for this plot point. Could the new films be veering back to mechanical web-shooters, or are the discs just a new element that facilitates Spidey's organic web-shooting abilities?

2. THE SYMBOL Every iteration of Spider-Man's costume in the comic book, television, and movie worlds have always added their
