

The same people that have been giving us the recent set pictures seen earlier, have also given us some pretty interesting details on a particular scene being filmed on location. They claim to have gotten the information from crew members. ***SPOILERS AHEAD*** "Eyewitnesses and crew members told us of a particular scene being filmed, where a bald-headed child wearing ragged clothes emerges from the well and pulls his hood over his head. From the conversations, we reckon this is a young Bane, emerging from a vat of Venom, trained by Pence's Ra's al Ghul. The years of addiction to Venom builds him to be a massive monster with amped up senses, intelligence and physical prowess." So what do you guys think? It would certainly explain the presence of Tom Hardy and Pence both being on location in India. But Christian Bale was also said to have been spotted as well so how do you
