

Want one more spoilerfic scene description from Empire? Course ya do! This time the magazine details what happens in the opening scene of the movie. As we already knew, it begins with a flashback to Auschwitz, and a recreation of the young Magneto scene from the first X-Men. But we also learn about what's going on with the young Xavier, and get confirmation that Sebastian Shaw(Kevin Bacon) is a part of Magneto's origins.. "It starts with the recreation of the bold young-Magneto-at-Auschwitz scene that opened Singer's X-Men back in 2000, progressing to an introduction to Xavier as a child, discovering a young, homeless and shapeshifting Mystique rooting around his kitchen for food, and then heads back to Auschwitz for a raw, intense segment in which Shaw(played by Bacon with grey hair and a creepy tache) coerces a young Erik into unleashing his powers." Empire go on to describe the vibe of the
