

Captain America: The Winter Soldier doesn't come out until April 2014 but that doesn't mean it's too early to look ahead to a possible third film. While Cap has never been as popular as other Marvel Comics characters like Spider-Man, The X-Men, Iron Man, or the Hulk, he IS one of Marvel's oldest heroes and has an underrated body of outstanding stories that have been written by some of the industry's finest writers...
